Ozonated Water Solutions for  
Commercial Uses & more

YS1600A

# Sterilisation and Deodorisation Machines

- ◆ Disinfection
- ◆ Removal of Formaldehyde

- ◆ Decomposition Toxins
- ◆ Degradation Ammonia nitrogen

- ◆ Deodorization Odour removal
- ◆ Purification Water quality

## Application environment

Floor and wall disinfection and deodorisation

Cleaning and disinfection of transport vehicles

RCP for cleaning and disinfecting deodorization

Warehouse cleaning and disinfection for odour removal

Crop sterilization and pest control

Cleaning and disinfection of sports equipment

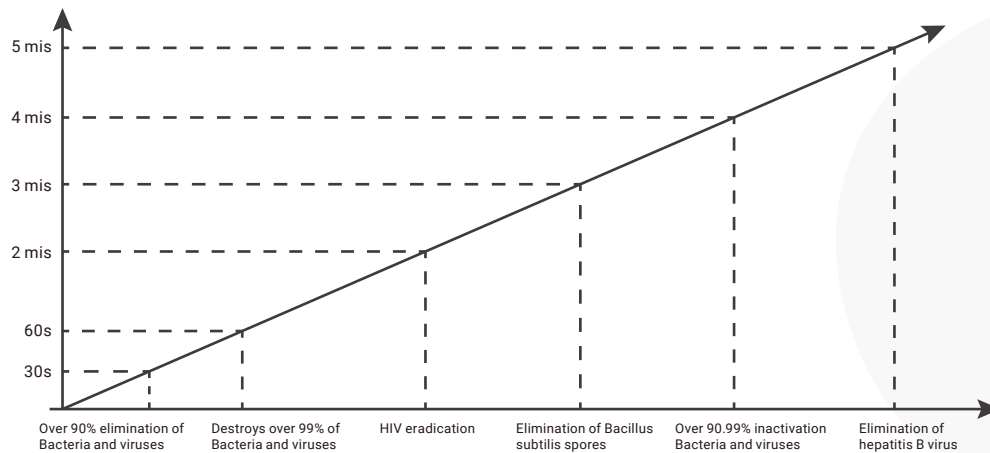

Ambulance cleaning and deodorising

Bathroom cleaning and disinfection deodorisation

## Efficient sterilisation

## Specifications

<b>Name</b>	Sterilisation and deodorisation machines
<b>Model</b>	YS1600A
<b>Principle of occurrence</b>	Low pressure electrolytic water
<b>Discharge flow</b>	5~10 L/min
<b>Oxygenated water concentration</b>	2~4 ppm
<b>Interface size</b>	National Standard 4 point external teeth
<b>Rated voltage</b>	AC220V50Hz
<b>Power rating</b>	960 W
<b>Size</b>	350x450x1050 mm
<b>Weight</b>	26.5 kg
<b>Control method</b>	Automatic start/stop
